

GippsAERO Airvan GA8, GA8-TC320

MICRO Vortex Generator Kit

	Factory	MICRO	Improvement With MICRO VGs
Flaps UP	64 KIAS	59 KIAS	5 kts
Flaps 14	60 KIAS	56 KIAS	4 kts
Flaps 38	57 KIAS	53 KIAS	4 kts

The **MICRO Vortex Generators** for the GA8 and GA8-TC320 are FAA STC approved and ready for installation on your airplane. This jet age technology provides a dramatic improvement in slow speed handling, improved characteristics, reduced stall speeds, and improved safety.

The **Micro VG Kit** consists of 132 vortex generators mounted full span on the wings including on top of the cabin and 72 vortex generators mounted on the underside of the horizontal stabilizer. This STC is included along with detailed drawings and illustrated instructions, templates for positioning VGs, spares, Loctite Depend adhesive and all the materials needed for the easy one day installation.

The **Micro Vortex Generators** are manufactured under our FAA PMA from aircraft grade 6063-T6 aluminum, alodined to a mil-spec, ready for painting.

When placing your order for a **Micro VG Kit**, please provide the Serial Number and Registration Number. We can ship the same day if your kit is ordered Alodine, ready to be painted. We can paint the VGs to match your airplane for an additional \$200 per color. Painted kits will ship within 3 days. Amex, VISA, MasterCard, Discover and COD orders accepted. Please call for further information.

- Improved Elevator Authority
- Improved Characteristics
- Improved Controllability
- Easy One Day Installation
- Kit Price \$2450 plus S&H
